

Rollerball Suspension™

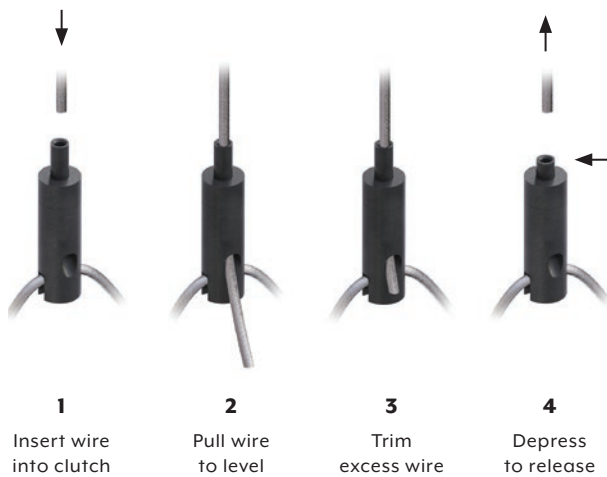

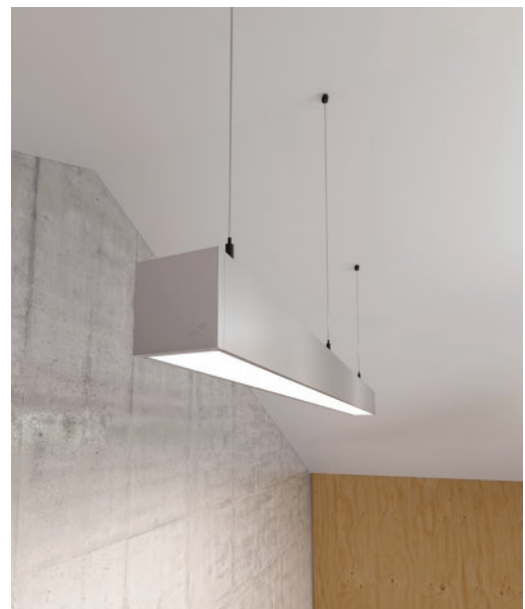

The smart suspension system that can be mounted on any surface, whether a flat or sloped ceiling, or even a wall. Height adjustment is also simple at the luminaire, for fine tuning close to the ground. The flexibility of luminaire location allows complete freedom of lighting design.

Vertical. Horizontal. Angled

There's no limitation for any type of ceiling or wall, even a single location can have so many variables in construction. This truly flexible system enables complete design freedom without compromise.

Simple & smart

Installation is not complex, it only uses a few parts and is totally scalable for long luminaire runs. It just simply works the way you would expect.
