The **NEW Conseal curved endplate**
with 'magnetic snap' now offers
you the choice to suit
your next custom project

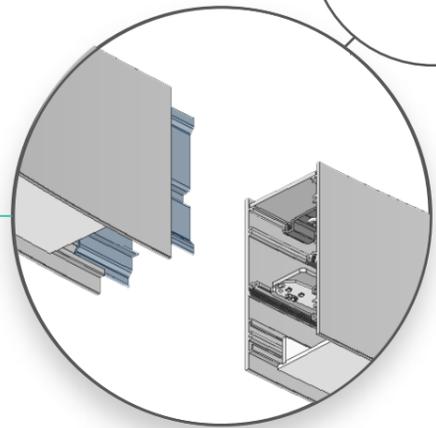

Conseal is a patented end plate
that is complete with 'magnetic
snap' cover plate that's nothing
short of impressive

**First of it's kind light
leak free system**

There are no light
leaks in the usual
places like
endplates, diffuser
expansion gaps
and at joins
where two or
more pieces are
connected
together. The
patented Lumi-
SEAL™ light leak
free system
incorporates the
SpeedConnect
Joining system
and the Conseal
endplate ensur-
ing no light leaks

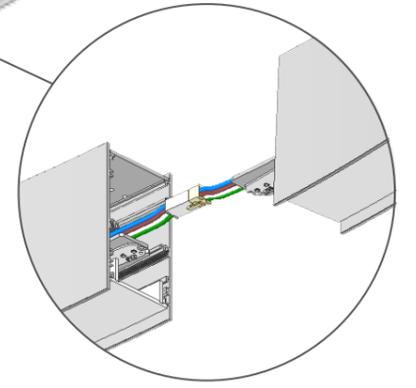

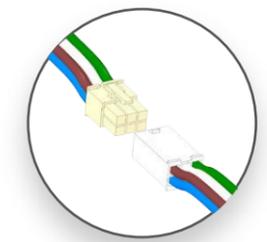

'Speed-Connect'
a fast easy to assemble
tool-less joining system
that minimises installation
time and additional skilled labour
and creates a light-leak free join.

Install Template

Xero Loop profiles come with the mounting templates that allow for easy installation.

The template should be assembled on the floor and the position in the room checked against the reflected ceiling plan then suspension positions should be laser transferred to the ceiling for accurate positioning before installing. Individual sections 'click' together to create an exact template of the actual luminaire.

Ease of installation is just another standard from the leader in linear lighting innovation.

Shape illustrated is an example only.
Templates are supplied for all individual designs and shapes
